EXPEDITING

Our 100,000 square foot warehouse adjoining our full service manufacturing shop helps facilitate prompt response time. We have relationships with all the major freight carriers and shippers to get your equipment to its destination as quickly as possible.

STANDARDS

All equipment is designed and manufactured in accordance with today's toughest standards. This insures successful field installation.

OEM SWITCHGEAR - AIR OR VACUUM

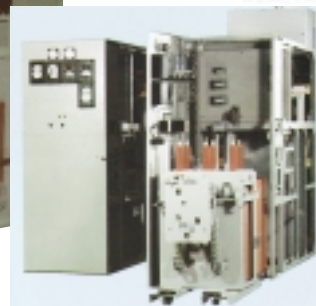

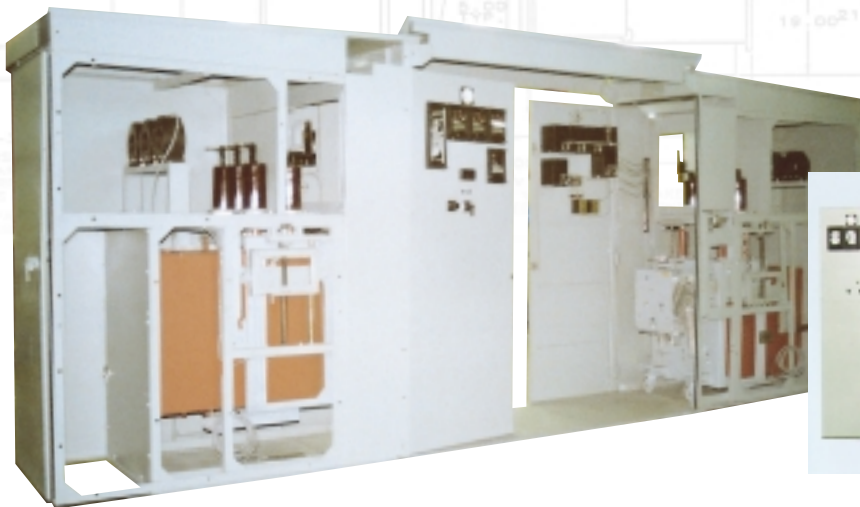

We build new power switchgear and medium voltage motor control to 34.5kV. Whether you need a matching OEM lineup or custom manufactured switchgear we have the resources to get it done. Our streamlined manufacturing process helps meet critical and emergency needs.

REMANUFACTURING

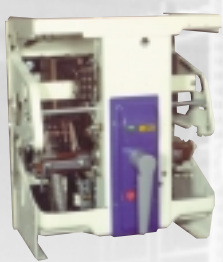

We have a full service remanufacturing facility that can remanufacture individual breakers to double ended substations.

We also specialize in matching existing switchgear lineups.

HAVING THE BREAKER FOR THE REQUIREMENT

With over 7,500 breakers in stock, we have the largest, modern inventory of low and medium voltage circuit breakers in North America. This inventory, coupled with a knowledgeable sales staff, gives us the ability to quickly respond to most any demand.

CIRCUIT BREAKER SALES CO., INC.

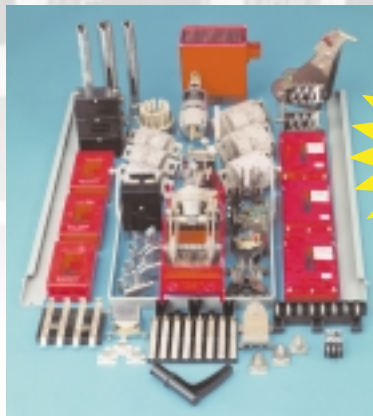

WARRANTY

All new or remanufactured equipment is shipped with a 1 year parts and labor warranty. We will stand behind our equipment and provide our customers with quality "Service After the Sale".

LOCATING THE PART WHEN YOU NEED IT

Circuit Breaker Sales stocks over 2.5 million parts ranking us as one of the industry's largest suppliers of switchgear and breaker parts. Most parts can ship the same day as ordered.

**We
Sell
Parts**

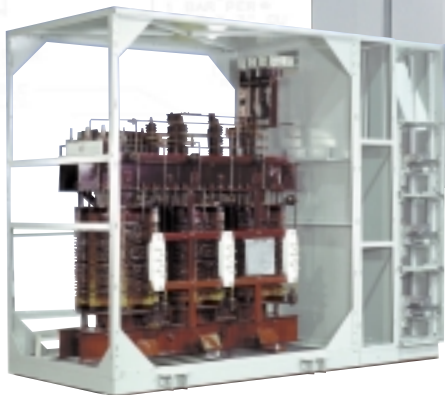

THE COMPLETE PACKAGE

We can offer new and remanufactured dry type transformers from 500 to 3750 kVA. All transformers come complete with drawings and certified test results. We also stock new cast coil transformers in all common voltages in sizes from 1000 to 3750 kVA.

CBS Maxi-Cast

LIFE EXTENSION

Low and medium voltage circuit breakers are retrofitted utilizing vacuum or SF-6 Technology. All breaker upgrades are professionally engineered, designed and tested. Retrofits extend the life, and increase the reliability of earlier generation breakers.

CBS Maxi-Vac

**IN HOUSE 200KV IMPULSE GENERATOR
TO TEST BIL WITHSTAND**

THE UNEXPECTED

Circuit Breaker Sales service crews, and mobile test vans are on call 24 hours a day to assist on your scheduled and nonscheduled shutdowns, installations, and field modifications.
